

## ChatGPT Ban or Embrace survey

As part of my BA in Professional Development at Aberdeen University, I am 'attempting' to design a plagiarism checker, using artificial intelligence to check on the use of artificial intelligence in student submissions. ( And loving the obvious irony of this :) )

To gather background evidence, I am keen to analyse how widespread the use/ concerns of AI in various business areas and age groups.

I should be hugely grateful if you would:

- a) spend 2 minutes filling in the six questions below, and
- b) share the survey on which ever socials you use.

All responses are 100% anonymous,

\* Required

1

How often do you use ChatGPT \* 

- Never
- Occasionally
- Monthly
- Weekly
- Daily

2

Which of these options best describes your current employment status \* 

- Student

Educator

Other

3
